Diagnostic Test Day

It's time to get a benchmark score. It's time to take a diagnostic test. Exciting! The test we're going to take is the **PowerPrep I** test on the ETS GRE website. It's free, which is awesome. And it's an official test from ETS, the company that actually makes the real thing, which is even more awesome. Here's what you need to do:

- Log in to your [ETS GRE account](#)
- Click on "Shop for Test Preparation"
- "Buy" the PowerPrep I exam for \$0
- Access the test in your "My Test Preparation and Services"
- Do NOT do the writing -- just the two quantitative sections and two verbal sections

When you are finished with the test, you can review any questions you got wrong here: [PowerPrep I Walkthroughs](#)

FINAL NOTE: Don't get too upset if your score is not where you want it to be. Remember – this is just a diagnostic test. It's not the final result.
